SUMMARY

Cloud infrastructure engineering student at TEK-UP University seeking a summer internship in cloud, DevOps or infrastructure engineering. Bachelor's degree in Information Systems Development, graduated with honors. Hands-on with AWS, Linux, containers (Docker, Podman), networking (BGP, OSPF) and full-stack development with NestJS, Next.js and Laravel. Preparing the AWS Cloud Practitioner and Solutions Architect certifications.

SKILLS

Cloud and DevOps: AWS (EC2, EBS, S3, VPC), OpenStack, Infrastructure as Code (Terraform), Docker, Podman, Linux, Git
Programming: Python (Boto3), Java, PHP, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks and APIs: NestJS, Next.js, Laravel, FastAPI, Bootstrap, REST APIs, JWT
Networking: BGP, OSPF, ACLs, Cisco Packet Tracer
Databases: PostgreSQL, MySQL
AI: Retrieval-Augmented Generation (RAG), FAISS, BM25, LLM APIs (Groq)

PROJECTS

Art Gallery on AWS | Team project (2 developers) | github.com/AjmiOns/art-gallery-aws Oct 2026

- Developed the full-stack art marketplace with Next.js, NestJS and PostgreSQL: user authentication, artwork publishing and browsing, and a Stripe test-mode checkout.
- Collaborated on the AWS infrastructure as code with Terraform (network, security and compute modules): VPC with six subnets across two Availability Zones in three tiers, Internet and NAT gateways, S3 endpoint, security groups chained by tier, bastion host and private EC2 backend.

CineBot AI | Solo project | github.com/AjmiOns/CineBot-AI Aug 2026 – Oct 2026

- Built a hybrid retrieval-augmented generation (RAG) movie assistant combining FAISS vector search and BM25 keyword search with Groq Llama 3.1 and TMDB movie data.
- Implemented personalised ranking and a chat interface with Laravel and FastAPI, and packaged the stack with Docker.

Folio Library | Solo project | github.com/AjmiOns/folio-library Oct 2026

- Designed a NestJS REST API with JWT authentication, role-based access control, TypeORM and PostgreSQL.
- Built a Bootstrap and Chart.js front end: catalog by category, favorites, trash and restore, and an admin dashboard.

Android To-Do List App | Solo project | github.com/AjmiOns/todolist-android-app Aug 2026 – Oct 2026

- Developed an Android task manager in Java with Retrofit, connected to a PHP and MySQL REST API (register, log in, add, edit and complete tasks).

EXPERIENCE

IT Intern | SicCad Engineering, Le Kef, Tunisia Feb 2025 – May 2025

- Designed and developed an e-commerce mobile application with a web dashboard built with Laravel.

IT Intern | Centre Privé de Formation en Informatique (CPN), M'Saken, Tunisia Jan 2024 – Feb 2024

- Developed an e-learning platform with HTML, CSS, Bootstrap and MySQL.

EDUCATION

TEK-UP University | Engineering Degree in Cloud Infrastructure Management 2025 – 2028 (expected)

- **Relevant coursework and labs:** cloud infrastructure (AWS, OpenStack), Linux containerisation (namespaces, cgroups, Podman), computer networking (BGP, OSPF, ACLs), AWS automation with Python and Boto3.

ISET du Kef | Bachelor's Degree (Licence) in Information Systems Development Graduated 2025

- Graduated with honors; final-year project graded Very Good.

CERTIFICATIONS

AWS Certified Cloud Practitioner (in progress) | AWS Certified Solutions Architect – Associate (in progress)
